

NEWTON ASHA OMBUYA

ICT SUPPORT • NETWORKING • SOFTWARE ENGINEERING

Nairobi, Kenya | ombuyanewton@gmail.com | GitHub: jakochia | Portfolio: newton-asha-portfolio.vercel.app

PROFESSIONAL SUMMARY

Software Engineering student and Cisco Networking Academy Instructor with practical experience in ICT user support, computer laboratory maintenance, hardware and software troubleshooting, network support, Windows/Linux environments, Cisco device configuration, and technical training. Experienced in diagnosing connectivity and system issues, maintaining ICT equipment, supporting users with different levels of technical knowledge, documenting technical activities, and promoting secure and effective use of technology. Strong problem-solving, communication, and customer-service orientation with a proactive approach to technical support.

CORE ICT SUPPORT SKILLS

- End-user / first-line technical support
- Windows installation, configuration & support
- LAN/WAN networking & connectivity troubleshooting
- Computer maintenance & peripheral support
- ICT asset and maintenance documentation
- System updates, patches and routine maintenance
- Backup and recovery awareness
- Audio-visual / presentation technology support
- Hardware & software troubleshooting
- Linux support and basic administration
- Cisco router & switch configuration
- Network cabling and connectivity testing
- Basic information security practices
- User training and technical guidance
- Technical reporting and issue documentation
- Problem solving and incident escalation

PROFESSIONAL EXPERIENCE

Cisco Networking Academy Instructor – MOHI Namareei

Marsabit County, Kenya | Current

- Provide practical technical support and guidance to learners and staff using computers, networking equipment, software and related ICT facilities.
- Diagnose and troubleshoot hardware, software, operating-system, peripheral, and network-connectivity problems and implement appropriate solutions or escalate complex faults.
- Maintain and monitor the computer laboratory, including routine checks, cleaning, equipment readiness, basic repairs, and identification of faulty components.
- Configure and troubleshoot Cisco networking devices and support LAN connectivity, cabling, and basic network testing.
- Install and support Windows operating systems and provide assistance with Linux environments and common software issues.
- Train users in networking, computer systems, troubleshooting, cybersecurity awareness, and safe and effective technology use.
- Document technical activities, equipment issues, maintenance work, training progress, and resolutions through reports and records.
- Support continuity of ICT services by identifying potential equipment and connectivity issues early and taking corrective action.

TECHNICAL PROJECTS

MOHI Cisco Portal – Supported development and maintenance of a web-based portal used for Cisco training administration and tracking. Exposure includes Node.js, Express, MongoDB, deployment, and basic web application maintenance.

Personal Finance Tracker – Web development project demonstrating software development, data handling, user-focused interface design, and application deployment skills.

EDUCATION

Diploma in Software Engineering – Mohi Technical Training Institute | Ongoing

Kenya Certificate of Secondary Education (KCSE) – Gathiru-ini Boys' High School | 2020–2023

CERTIFICATIONS & PROFESSIONAL TRAINING

- **Cisco CCNA / Cisco Networking Academy training** – Networking fundamentals, routing and switching, network troubleshooting and configuration.
- **AI Essentials** – Moringa School.
- **Google Workspace Administrator** – Training/skills exposure.
- **Ethical Hacking and IT Security** – Practical learning exposure.

TECHNICAL TOOLS & TECHNOLOGIES

Cisco Packet Tracer • Cisco routers & switches • Windows • Linux • Kali Linux • LAN/WAN • TCP/IP networking • Network cabling • Node.js • Express • MongoDB • MySQL/SQL • Git/GitHub • Vercel • VirtualBox • Termux

PROFESSIONAL STRENGTHS

Strong troubleshooting and diagnostic ability • Clear communication with non-technical users • Teamwork and collaboration • Attention to detail • Ability to prioritize support issues • Proactive maintenance mindset • Willingness to learn and adapt • User-focused service
